

The area around Holborn – page 1

This document is intended to be an adjunct to the pages on the web site about the area around Holborn.

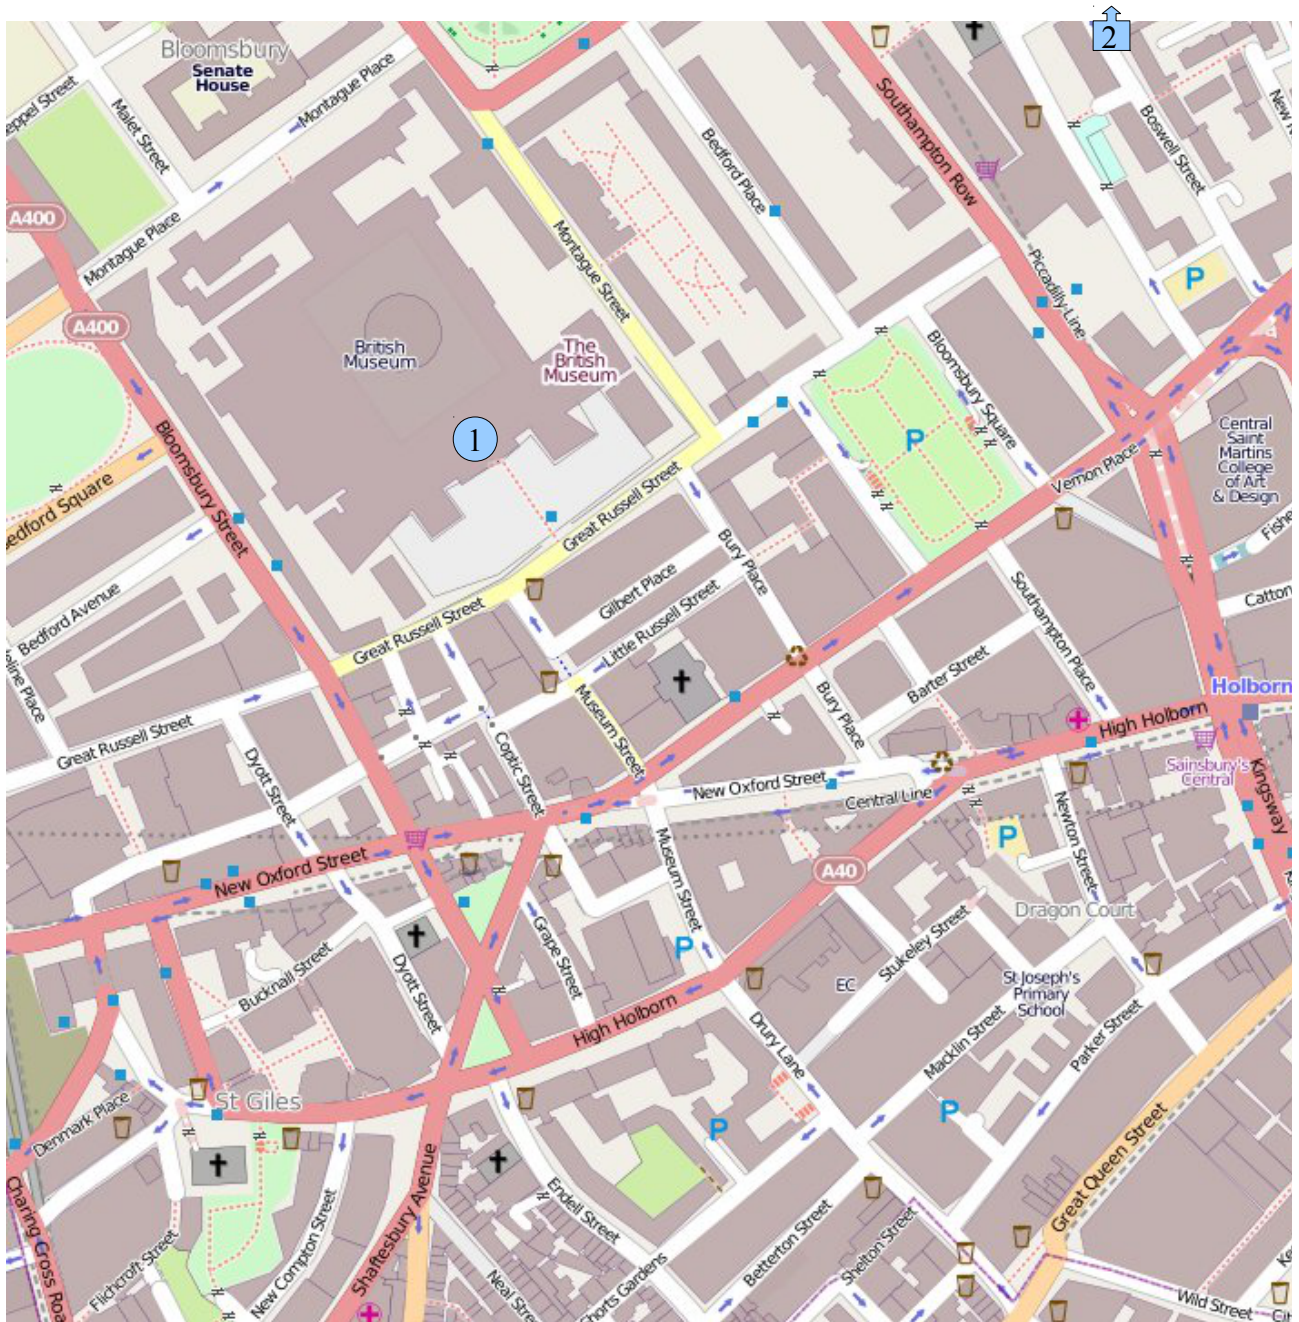

The numbers on the maps are not intended to give an order of visiting but just to enable labelling. You decide on your own route. Underground stations are labelled in blue lettering and station entrances are marked with a blue square somewhere near the title. For example – on the first map in the centre near the right-hand edge is the label for 'Holborn' station with the blue blocks marking the entrance just below.

The second map is the continuation of the first map from its right-hand edge and they overlap a little. You could tape them together if you wish.

Key to the labels:

1. British Museum.
2. St. Christopher's Chapel.
3. The Old Curiosity Shop
4. The Sir John Soane Museum.
5. Linclons Inn Fields
6. Lincolns Inn
7. Staple Inn
